

The Eczema Powerhouse Special is a combination of our most healing creams. This skincare kit is specifically engineered to combat the most difficult skin conditions.

The Extra Mild Cream is the anchor of this trio featuring fewer ingredients than any baby cream, deeply moisturizing and soothing, yet containing no essential oils. EMC more than suitable for even the most sensitive skin.

Our flagship product, Bountiful Balm, will quickly become a staple in your medical kit because of it's effectiveness against all skin irritations, rashes, cold sores, bites, cuts, and stings. BB is cloth diaper safe and has been proven as quick fix for diaper rash.

The Ultimate Relief Cream brings in the big guns against itching, inflammation, and super stubborn conditions like psoriasis and eczema. URC is our most potent offering.
